EXPERTS FOR SUPPLIER RIGHTS & INSURANCE RECOVERY

PASCHEN Rechtsanwälte

PASCHEN Rechtsanwälte is a supra-regional law firm, specialized in economic law. Founded in 1993, today, we are one of the leading German providers in the enforcement of supplier rights in the B2B sector and have handled recovery claims of insurance companies for almost a decade. Our clients include well-known medium-sized companies as well as multinational corporations.

Highest demands on quality, technology and innovation, combined with the intensive personal support for the individual client characterize our work from the beginning to the end of the claim, if necessary, even with legal means of coercion. At the same time, we always keep in mind that the debtor is usually still your customer.

In the field of supplier rights, our work starts with the drafting of contracts, Specimen contracts and general terms and conditions and

continues through the legal support of business transactions up to the swift realization of your claims in Germany and abroad.

In insurance recovery we enter into processing, when the efforts to an amicable clarification of the recovery claims have been unsuccessful. If required, we will also support you in the defense against unjustified claims of contractual partners or third parties.

The core of communication with our clients is the **debit.control** portal developed by PASCHEN Rechtsanwälte.

With this online solution, you are able to follow the processing of your current proceedings in detail and up-to-the-minute online - maximum transparency is thus guaranteed. With its comprehensive evaluation and statistics functions, the system is a valuable planning tool for your risk management.
